Abstract. This is a \LaTeX template/instructions for The 39th JSST Annual Conference International Conference on Simulation Technology (JSST2020). This version of the template is written on February 8, 2020. The authors must input paper's title, authors' name, affiliation, and corresponding author's email address. Summary is written here. Moreover, the authors must put keywords of the paper below. It is essential to adhere to this template because your manuscripts are printed as submitted with minimal editing/formatting. Do not modify any formats or styles. Visit <http://jsst.jp/e/JSST2020/> for the latest version of JSST2020 template.

Keywords: Computer simulation, Numerical methods

1. Introduction

This template provides formats and styles for JSST2020 full paper. It is essential to adhere to this template because your manuscript will be published "as is" with minimal copy-editing. Do not modify formats (font, font size, paper size, printing area, line space, etc). Manuscripts to JSST2020 are received via electronic submission only. Author should prepare a manuscript by using the official approval formats (\LaTeX or Word style), in which all the styles and formats are prescribed. Use this instruction file as a template.

2. Manuscript length

The authors prepare their manuscripts according to the guidelines described on the web page:

<http://jsst.jp/e/JSST2020/>

The \LaTeX style file and MS Word template file can be downloaded from this page. Manuscript accepts 2 pages in the standard, the submission of 1 page at a minimum by full paper format, and do not exceed 4 pages of an A4-sized PDF file.
